STATINTL

1. In originally concurring in his request for waiver, I believed at that time, and still do, that [REDACTED] acted honestly and sincerely in signing the letter of intent to remain with the Agency for 36 months and that the Agency has benefitted sufficiently from the training to waive that part of the obligation requested by [REDACTED]

STATINTL

2. On this basis I would endorse the granting of a waiver to Mr. [REDACTED] because not to do so would be inequitable and not, I believe, in the public interest.
